November 2024

HF Receive Antennas and selection methods

The next [KARS General Meeting](#) will be Tuesday November 12th, 7PM at the Bradley Bourbonnais Sportsmen's Club in Bourbonnais. At the November meeting we will have a round table discussion on HF receive antennas and how we select or access those antennas. It is widely know that you can't work them if you can't hear them. Long beverages as well as those antennas implemented on small lots will be discussed. What are you using? Let's learn from each other. See you all Tuesday the 12th at 7pm.

Roger Smith WB9DFX (sk) built the first KARS repeater controller (1970)

RXAssistant V3.8

RXAssistant updated for the new 8000 series Flex Radios

Ken W9IE has updated his RXAssistant software for Windows to work with the new 8000 Series Flex Radios as well as 6000 series radios with RXA V3.8. Looks and works identical to the previous version 3.7. Just install over the top of the previously installed version or do a fresh install. The user and installation documents have also been updated. RXA is hosted by KARS on the KARS web site and is a free app download. This innovative app is being enjoyed by ops worldwide.

Thank you Ken!

W9AZ

NOMINATIONS

Nominations for KARS Officers and Directors will continue to be entertained starting at the November General meeting. If you know of someone you believe would be a good candidate, let them know and nominate them. Better still, nominate yourself for an office/director and help out by serving with your club!

Ken W9YNI (now W9IE) and Roger Smith WB9DFX (sk) stand with the first KARS repeater in 1970. (Pg 3)
