RXAssistant Download and Installation Instructions

1. Download the RXAssistantSetup-3.8.zip file at
   http://www.w9az.com/RXAssistant/RXAssistantSetup-3.8.zip
   This link is also available on the Main Web Site Page.

2. Once downloaded double click on the RXAssistantSetup-3.8.zip file
   it should self extract to your default download directory.

3. Double click on the RXAssistantSetup-3.8.exe file to start the Install
   procedure.

4. Follow the Installation procedure and make sure the following options
   (IF PRESENTED) are Selected as Follows.

   In the "Select install mode" box select
   -> Install for me only (recommended)

   Next check the box to
   Create a desktop shortcut

   If Windows Firewall has blocked some Features,
   CHECK THE "PRIVATE" NETWORK BOX ALONG WITH "PUBLIC".
   Then "ALLOW ACCESS".

   There is no need to uninstall a previous version but should you want
   to remove the program from your system, use the Standard Windows
   Uninstall Feature.
