SEVERE WEATHER EMERGENCY COMMUNICATIONS OPERATING PRIMER AT KARS MARCH MEETING

The next KARS meeting will be held on Tuesday, March 4th, at 7 P.M. in the first floor meeting room of St. Mary's Hospital. Following a brief business meeting, Harry WD9FYF will present a program on emergency communications and weather spotting.

Don't miss this program. Harry will give pointers about what to report and what not to report. For example: The Weather Service needs to know about large hail, damaging winds, wall clouds and rotating clouds. They really don't need to hear a report that says, "I think I see a shelf cloud", or "It's raining over here."

Harry will give us the necessary specifics to enable us to be good weather spotters on the radio.
