April 2023

KARS ANNUAL BANQUET

Saturday April 15th - (6PM - 9PM) in the Brickstone Brewery Banquet Room - Reserve Now!!!

The April 11th 2023 [KARS General Meeting](#) will be held 7PM at the Bradley Bourbonnais Sportsmen's Club.

KARS is setting a new precedent beginning this month to hold our business meetings after the program conclusion. Our April program will feature Scott, K9ABN with a presentation on portable operations, including a few demonstration setups. The new club 'go' kit will also be displayed by Brian KD9NPQ. After the presentation, a short Q&A session will be held. Members are encouraged to bring along their own portable 'go' kits to show!

Finally, Scott will talk about a couple of places to operate POTA (Parks On The Air).

An evening you won't want to miss!
See you there!

Only 39 Days to the 2023 Dayton Hamvention!

DX World DXpedition Calendar

April 1 through April 30

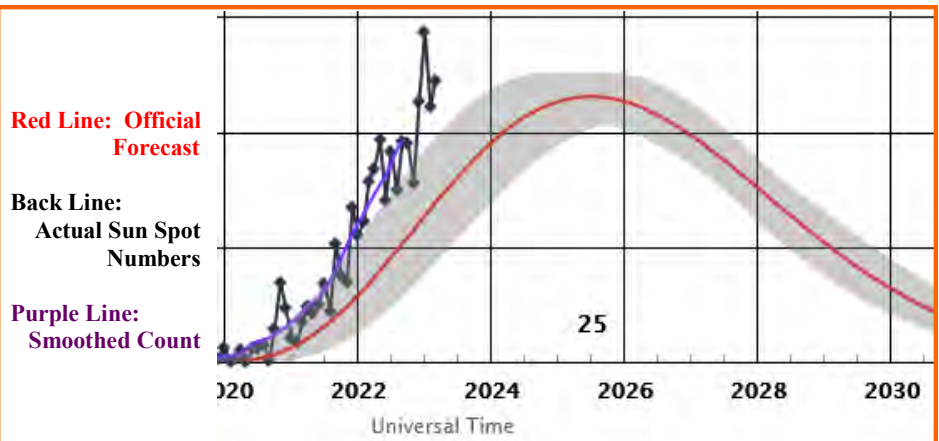

SOLAR CYCLE 25 UPDATE

If you haven't been working tons of DX on the HF bands lately...It's your own fault!

As you can see from the graph on the right, the Sun is doing it's part...we have sunspots by the barrel! The upper bands are packed with DX from all corners of the globe well into the evening!

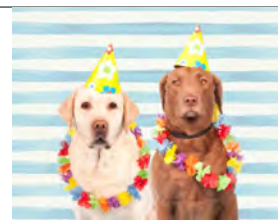

The chart above shows the bigger DXpeditions scheduled for April. Some nice stuff there and it does not include the tons of "sporadic" DX that shows up day and night. Have you tried 6, 10, 12 Meters lately. Of course 20, 17 & 15 Meters are packed also! GL in the pileups!

KARSFEST 2023 UPDATE

For we who run KARS-Fest, Dayton Hamvention contains an added dimension, as our successful presence at Dayton is a great help in making KARS-Fest a success. One of the issues that has come up this past year is the reluctance of the Hamvention powers that be to allow other Hamfests to lay out copies of their flyers on the various tables around the Hamvention venue. We've decided this year to bring up for discussion to those who attend the KARS March meeting an idea to replace the expenditure for 1500 flyers with a fewer number of discreet posters around the grounds, indoor and out, containing merely the KARS QR code with a few words of description added. The posters would be normal sized paper, laminated, and attendees would be invited to use the QR reader apps on their phones to get the full information on KARS-Fest. To the right is the code. If we catalog where we put these QR code 'posters', we can retrieve them at the end of the Hamvention for use elsewhere before KARS-Fest. What do you think? de Art K9XI

No more below zero temperatures, snow and ice to deal with!
